**FIFTH EDITION**

International festival  
photography

Once again this year, SCAN Tarragona is holding *Full Contact*, a project to support emerging artists who use photography as an essential means of expression and to provide them with a forum to meet with stakeholders from the art world.

### **What is *Full Contact*?**

It is an innovative and unique portfolio viewing project with human relationships as the primary focus.

*Full Contact* is a forum in which emerging artists selected by the festival in this call for entries can forge relationships and share their photographic projects with a group of experts from the world of visual arts. At *Full Contact*, all participating artists can receive feedback on their work, expand their network of contacts, and possibly initiate collaborations with other creators and stakeholders.

The features that make *Full Contact* unique are: (1) selected artists are invited by the festival and pay no registration fees; (2) a pleasant, friendly and relaxed atmosphere that fosters mutual trust and relationship-building among all participants; (3) an exciting and inspiring day spent surrounded by recognised professionals from the fields of photography and art; (4) participating artists are considered SCAN artists and receive a place in the programme as well as visibility in the festival's publicity on its networks and website.
